Professional Summary

Marketing graduate with hands-on experience at the intersection of customer support and technical triage inside SaaS environments. At Tiendanube, I acted as the bridge between users and engineering: reproducing bugs, performing technical diagnostics (URL/hosting setups, Meta Pixel configurations), and escalating evidence-backed tickets when technical support was overloaded. I bring a blended skill set of empathetic communication, UX/UI sensibility (Figma, CRO), and analytical curiosity that helps me understand both user frustration and underlying interface flaws.

Experience

Customer Support Analyst

Tiendanube | Mar 2025 – Dec 2025

- Investigated and triaged merchant-reported issues, reproducing bugs side-by-side with engineers and documenting findings in Jira-style tickets so the product team received vetted, evidence-backed signal
- Performed technical setup tasks outside standard support scope — URL/hosting connections, Meta Pixel configuration, third-party integrations — when technical support was overloaded
- Analyzed platform metrics and customer behavior data (Excel, Google Sheets) to identify recurring pain points and flag systemic trends to senior specialists
- Provided empathetic, solution-oriented communication to merchants experiencing frustrating technical issues, following up until full resolution
- Trained new merchants through platform onboarding, guiding them through complex technical integrations (Meta Ads, Google Ads, GA4, Meta Pixel) to resolve friction

autonomously

Content Creator Intern

Corporativo Laureate | Dec 2025 – Jun 2026

- Developed content strategies for institutional and brand campaigns aligned with brand voice and positioning objectives
- Managed multiple simultaneous projects ensuring on-time delivery and brand guideline compliance

Marketing Intern

Bridgestone Mobility Solutions (Webfleet) | Aug 2024 – Jan 2025

- Optimized SaaS landing pages with focus on CRO, UX, and SEO; developed interactive prototypes in Figma to improve conversion flows inside a B2B fleet-management platform
 - Managed and segmented Salesforce lead databases for lead generation and nurturing campaigns in a data-heavy tech environment
 - Created sales enablement and product materials, translating complex technical product features into client-friendly assets
 - Conducted competitor analysis, SEM keyword research, and campaign ROI reporting using Excel to support data-driven decisions
