Professional Summary

Marketing graduate with hands-on experience at the intersection of customer support and technical troubleshooting inside SaaS environments. At Tiendanube — an e-commerce platform serving thousands of merchants — I acted as the bridge between users and engineering: reproducing bugs, performing technical diagnostics, and escalating evidence-backed tickets to the product team. I routinely stepped outside the standard support scope to handle technical tasks (store URL/hosting connections, Meta Pixel configuration, third-party integrations) when the dedicated technical support team was overloaded. I bring a blended skill set of empathetic customer communication, analytical curiosity, and UX/UI sensibility (Figma, wireframing, prototyping, CRO) that helps me understand both the user frustration and the underlying interface flaw. Comfortable in fast-paced, ticket-driven environments with structured workflows, high-volume queues, and direct exposure to engineering backlogs.

Experience

Customer Support Analyst

Tiendanube | Mar 2025 – Dec 2025

- Investigated and triaged incoming merchant-reported issues on the e-commerce platform, reproducing bugs side-by-side with engineers and documenting clear, evidence-backed findings in Jira-style tickets so the product team received vetted signal instead of unverified noise
- Performed technical setup tasks that fell outside standard support scope — including store URL/hosting connections, Meta Pixel configuration, and third-party app

integrations — when the technical support team was overloaded and unable to clear its backlog

- Analyzed platform metrics and customer behavior data (Excel, Google Sheets) to identify recurring pain points and patterns, flagging systemic issues to senior specialists for deeper investigation
- Provided empathetic, warm, and solution-oriented communication to merchants experiencing genuinely frustrating technical issues, often following up on problems that upset them until resolution
- Trained and guided new merchants through platform onboarding, helping them navigate complex technical integrations (Meta Ads, Google Ads, GA4, Meta Pixel) and resolve setup friction autonomously
- Acted as the frontline feedback loop for product and engineering, translating user complaints into reproducible technical steps and prioritizing escalations based on impact and severity

Content Creator Intern

Corporativo Laureate | Dec 2025 – Jun 2026

- Developed content strategies for institutional and brand campaigns aligned with brand voice and positioning objectives
- Managed multiple simultaneous projects ensuring on-time delivery and brand guideline compliance
- Analyzed content performance data to identify opportunities for improvement in engagement and reach

Marketing Intern

Bridgestone Mobility Solutions (Webfleet) | Aug 2024 – Jan 2025

- Optimized SaaS landing pages with focus on CRO, UX, and SEO; developed interactive prototypes in Figma to improve conversion flows inside a B2B fleet-management platform
- Managed and segmented Salesforce lead databases for lead generation and nurturing campaigns in a data-heavy tech environment
- Conducted competitor analysis, SEM keyword research, and campaign ROI reporting using Excel to support data-driven decisions
- Created sales enablement and product materials in collaboration with the marketing team, translating complex technical product features into client-friendly assets

- Coordinated event marketing initiatives including partner activations, trade shows, and logistics
-

Education

Bachelor's Degree in Marketing

Universidad del Valle de México | 2022 – 2025

UX/UI Design Basic Certification

Figma, Wireframing, Prototyping | 2023

Skills

- **Customer Support & Triage:** Jira, Zendesk-style ticketing, bug investigation, reproduction, and documentation, escalation workflows, technical onboarding, retention
- **SaaS & Technical Troubleshooting:** E-commerce platform support, URL/hosting setup, third-party integrations, API-based tool configuration (Meta Pixel, GA4)
- **UX/UI & Product Sensibility:** Figma, wireframing, prototyping, CRO, landing-page optimization, user-flow analysis, mobile app ecosystems (iOS/Android)
- **Analytics & Reporting:** Google Analytics (GA4), Excel, Google Sheets, metric-driven trend identification
- **Digital Platforms & Integrations:** Meta Ads, Google Ads, Google Analytics (GA4), Search Console, Meta Pixel, e-commerce platforms
- **CRM & Automation:** Salesforce, HubSpot, Mailchimp, Klaviyo
- **Design & Creativity:** Adobe Photoshop, Canva, visual asset creation, brand-aligned design
- **Communication:** Empathetic written communication, warm tone, flawless spelling and grammar in English and Spanish
- **Project Management:** Asana, Slack, multi-project coordination, time management, attention to detail

- **Technical Foundations:** HTML, CSS, Python (basic) — enough to read, reproduce, and document web-related bugs accurately

Competencies

- Analytical curiosity and pattern recognition from individual tickets to trends
- Methodical problem-solving through active listening and thoughtful questioning
- Self-motivated and reliable in repetitive, process-driven work at scale
- Clear cross-functional communication with technical and non-technical teams
- Strong attention to detail and consistent documentation standards
- Adaptability and zest for learning new tools and workflows

Languages

- **Spanish:** Native
- **English:** B2 Upper Intermediate
- **Portuguese:** Basic
